

MRCC Summer Student Intern-Climatologist

Position: Student Hourly

Salary: \$12/hour; 40 hours/week

Availability: May 29, 2018-August 17, 2018

Primary Function of Position: To serve in a support role within the service and research-based environment at the Midwestern Regional Climate Center (MRCC).

Duties & Responsibilities: This position is designed to expose the intern to the range of activities within the Midwestern Regional Climate Center. The intern will assist MRCC climatologists with service activities that may include responding to data and information requests as well as work on applied climate research projects.

Qualifications

Education:

Required: Currently enrolled as a sophomore or junior majoring in the atmospheric sciences or related field.

Preferred: Coursework in climatology is preferred.

Experience:

Required: Strong communication skills are required for this climate services environment. Experience with word processing and spreadsheet software is also required.

Preferred: Experience in computer programming, scripting and statistical packages such as Unix, Perl and Python is encouraged.

Knowledge: Word and Excel.

Contact Information: Letters and resumes submitted electronically via email must include the applicant's last name as part of the file name. Interested applicants should email cover letter and resume no later than [Tentative: Monday, March 2, 2018] to:
